Reverend Gwenievere Maria

Soul- Inspired Healing

Rev. Maria's original healing system called *the Tamashii Method* offers a non-intrusive path to healing where the natural frequency of your soul is the guide that leads the way.

She believes that there is no limit to what can be healed once the higher frequency of your soul has resonated with the lower frequency of the pain-body. Whether it is emotional, psychological or physical, chronic or current, her life-changing healing method awakens the cellular memory of wholeness and transforms all else into soul-inspired wisdom.

The Tamashii Method is taught as a sacred journey through the seven chakras and is honored in all modalities as a true and harmonious path to healing.

Whether you are seeking individual self-healing, enhancing your current practice or becoming a professional/compassionate guide for others, I look forward to supporting your journey.
